## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 4, 8, 13-15, and 19-28 are allowed.

The following is an examiner's statement of reasons for allowance:

Arguments filed on 11/5/01 are persuasive in overcoming the prior art rejections.

Regarding claim 4, arguments are persuasive in identifying that Takanshi fails to disclose or suggest a photo-induced current as generated depending on exposure quantity (Remarks, Pages 2-3). Also, arguments are persuasive in identifying that Takanshi fails to disclose that when a voltage is applied to the photoelectric sensor after the sensor has been exposed to light with no voltage applied thereto or voltage of opposite polarity as applied thereto, that a photo-induced current is generated. Further, the prior art fails to teach such features.

Regarding claim 8, arguments are persuasive in identifying that Takanshi fails to disclose or suggest the exposed portion of the photoelectric sensor higher in conductivity than the unexposed portion and keep the exposed portion still higher in conductivity than the unexposed portion even after the exposure of the sensor..." (see Remarks, Page 4).

Further regarding claims 13-15 and 19, arguments are persuasive in identifying that the prior art fails to disclose or suggest the claimed information recording methods (Remarks Page 4). The prior art fails to disclose the claimed exposure and voltage application methods.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
